

DATA ANALYTICS 2020

Forward

The Ninth International Conference on Data Analytics (DATA ANALYTICS 2020), held on October 22-29, 2020, continued the series on fundamentals in supporting data analytics, special mechanisms and features of applying principles of data analytics, application-oriented analytics, and target-area analytics.

Processing of terabytes to petabytes of data, or incorporating non-structural data and multi-structured data sources and types require advanced analytics and data science mechanisms for both raw and partially-processed information. Despite considerable advancements on high performance, large storage, and high computation power, there are challenges in identifying, clustering, classifying, and interpreting of a large spectrum of information.

The conference had the following tracks:

- Application-oriented analytics
- Big Data
- Sentiment/opinion analysis
- Data Analytics in Profiling and Service Design
- Fundamentals
- Mechanisms and features
- Predictive Data Analytics
- Transport and Traffic Analytics in Smart Cities

We take here the opportunity to warmly thank all the members of the DATA ANALYTICS 2020 technical program committee, as well as all the reviewers. The creation of such a high quality conference program would not have been possible without their involvement. We also kindly thank all the authors that dedicated much of their time and effort to contribute to DATA ANALYTICS 2020. We truly believe that, thanks to all these efforts, the final conference program consisted of top quality contributions.

We also gratefully thank the members of the DATA ANALYTICS 2020 organizing committee for their help in handling the logistics and for their work that made this professional meeting a success.

We hope that DATA ANALYTICS 2020 was a successful international forum for the exchange of ideas and results between academia and industry and to promote further progress in the field of data analytics.

DATA ANALYTICS 2020 Steering Committee

Sandjai Bhulai, Vrije Universiteit Amsterdam, the Netherlands

Ivana Semanjski, Ghent University, Belgium

Les Sztandera, Thomas Jefferson University, USA

Kerstin Lemke-Rust, Hochschule Bonn-Rhein-Sieg, Germany

Wolfram Wöß, Institute for Application Oriented Knowledge Processing | Johannes Kepler University, Linz, Austria

George Tambouratzis, Institute for Language and Speech Processing, Athena R.C., Greece

DATA ANALYTICS 2020 Publicity Chair

Daniel Andoni Basterrechea, Universitat Politecnica de Valencia, Spain
