

# INTELLI 2019

## Foreword

The Eighth International Conference on Intelligent Systems and Applications (INTELLI 2019), held between June 30 – July 4, 2019 - Rome, Italy, was an inaugural event on advances towards fundamental, as well as practical and experimental aspects of intelligent and applications.

The information surrounding us is not only overwhelming but also subject to limitations of systems and applications, including specialized devices. The diversity of systems and the spectrum of situations make it almost impossible for an end-user to handle the complexity of the challenges. Embedding intelligence in systems and applications seems to be a reasonable way to move some complex tasks from user duty. However, this approach requires fundamental changes in designing the systems and applications, in designing their interfaces and requires using specific cognitive and collaborative mechanisms. Intelligence became a key paradigm and its specific use takes various forms according to the technology or the domain a system or an application belongs to.

We take here the opportunity to warmly thank all the members of the INTELLI 2019 Technical Program Committee, as well as the numerous reviewers. The creation of such a high quality conference program would not have been possible without their involvement. We also kindly thank all the authors who dedicated much of their time and efforts to contribute to INTELLI 2019. We truly believe that, thanks to all these efforts, the final conference program consisted of top quality contributions.

Also, this event could not have been a reality without the support of many individuals, organizations, and sponsors. We are grateful to the members of the INTELLI 2019 organizing committee for their help in handling the logistics and for their work to make this professional meeting a success.

We hope that INTELLI 2019 was a successful international forum for the exchange of ideas and results between academia and industry and for the promotion of progress in the field of intelligent systems and applications.

We are convinced that the participants found the event useful and communications very open. We also hope that Rome provided a pleasant environment during the conference and everyone saved some time for exploring this beautiful city.

### **INTELLI 2019 Chairs**

### **INTELLI Steering Committee**

Lars Braubach, Hochschule Bremen, Germany

Leo van Moergestel, HU University of Applied Sciences Utrecht, Netherlands

Maiga Chang, Athabasca University, Canada

Sérgio Gorender, Federal University of Bahia (UFBA) & Federal University of the South of Bahia

(UFSB), Brazil

Chin-Chen Chang, Feng Chia University, Taiwan

Stefano Berretti, University of Florence, Italy

Antonio Martin, Universidad de Sevilla, Spain

**INTELLI Industry/Research Advisory Committee**

David Greenhalgh, University of Strathclyde, Glasgow, UK

Carsten Behn, Technische Universität Ilmenau, Germany

Paolo Spagnolo, National Research Council, Italy

Luca Santinelli, ONERA Toulouse, France

Floriana Gargiulo, Gemass - CNRS | University of Paris Sorbonne, Paris, France
