Table of Contents

Gestalt and Computational Perceptual Approach: Brain responses tendencies given by visual and auditory basic stimuli 1
Bruno Giesteira, Joao Travassos, Diana Tavares, and Diamantino Freitas

Functional Segregation of Semantic Memory and Processing in Ventral Inferior Frontal Gyrus 5
Mi Li, Shengfu Lu, Xiaofei Xue, and Ning Zhong

Towards a Cognitive Handoff for the Future Internet: Model-driven Methodology and Taxonomy of Scenarios 11
Francisco A. Gonzalez-Horta, Rogerio A. Enriquez-Caldera, Juan M. Ramirez-Cortes, Jorge Martinez-Carballido, and Eldamira Buenfil-Alpuche

Agent and Swarm Views of Cognition in Swarm-Array Computing 20
Blesson Varghese and Gerard McKee

The Significance of Verbal and Spatial Attentional Resources on Mental Workload and Performance 27
Abdulrahman Basahel, Mark Young, and Marco Ajovalasit

Guided Local Search in High Performance Detectors for MIMO Systems 36
Jaime L. Jacob, Yuri M. Mostagi, and Taufik Abrao

Towards a Cognitive Handoff for the Future Internet: A Holistic Vision 44
Francisco A. Gonzalez-Horta, Rogerio A. Enriquez-Caldera, Juan M. Ramirez-Cortes, Jorge Martinez-Carballido, and Eldamira Buenfil-Alpuche

Complexity and Chaos Analysis of a Predator-Prey Ecosystem Simulation 52
Yasaman Majdabadi Farahani, Abbas Golestani, and Robin Gras

A Knowledge Development Conception and its Implementation: Knowledge Ontology, Rule System and Application Scenarios 60
Eckhard Ammann, Manuela Ruiz-Montiel, Ismael Navas-Delgado, and Jose F. Aldana-Montes

URBANO: A Tour-Guide Robot Learning to Make Better Speeches 66
Jose Javier Rainer and Ramon Galan

Graphical Modelling in Mental Health Risk Assessments 72
Olufunmilayo Obembe and Christopher D. Buckingham

A Tool for Experimenting with a Theorem Prover 78
Foteini Grivokostopoulou and Ioannis Hatzilygeroudis

Algorithm to Solve Web Service Complex Request Using Automatic Composition of Semantic Web Service 84

Brahim Batouche, Yannick Naudet, and Frederic Guinand

Recognition and Understanding Situations and Activities with Description Logicsfor Safe Human-Robot Cooperation 90
Jurgen Graf, Stephan Puls, and Heinz Worn

An Estimation of Distribution Algorithm using the LZW Compression Algorithm 97
Orawan Watchanupaporn and Worasait Suwannik

Learning Approaches to Visual Control of Robotic Manipulators 103
Paulo Goncalves and Pedro Torres

A Perspective on Machine Consciousness 109
Dilip Prasad and Janusz Starzyk
