

## Table of Contents

Growing Complex Software Systems: A Formal Argument for Piecemeal Growth in Software Engineering <i>Jerry Overton</i>	1
Patterns in Safety Analysis <i>Tor Stalhane, Olawande Daramola, and Vikash Katta</i>	7
Analyzing User Patterns to Derive Design Guidelines for Job Seeking and Recruiting Website <i>Yao Lu, Sandy El Helou, and Denis Gillet</i>	11
Pattern Innovation for Architecture Diagnostics in Services Computing <i>Alfred Zimmermann and Rene Reiners</i>	17
Iris Recognition: Existing Methods and Open Issues <i>Sajida Kalsoom and Sheikh Ziauddin</i>	23
A Pattern-Based Architecture for Dynamically Adapting Business Processes <i>Mohamed Lamine Berkane, Lionel Seinturier, and Mahmoud Boufaïda</i>	29
Exploiting HCI Pattern Collections for User Interface Generation <i>Juergen Engel, Christian Herdin, and Christian Maertin</i>	36
On A Type-2 Fuzzy Clustering Algorithm <i>Leehter Yao and Kuei-Sung Weng</i>	45
Pattern-oriented Enterprise Architecture Management <i>Tobias Brunner and Alfred Zimmermann</i>	51
Development of Graphical User Interfaces based on User Interface Patterns <i>Stefan Wendler, Danny Ammon, Teodora Kikova, and Ilka Philippow</i>	57
