

ACHI 2018

Forward

The eleventh edition of The International Conference on Advances in Computer-Human Interactions (ACHI 2018) conference was held in Rome, Italy, March 25 - 29, 2018.

The conference on Advances in Computer-Human Interaction, ACHI 2018, was a result of a paradigm shift in the most recent achievements and future trends in human interactions with increasingly complex systems. Adaptive and knowledge-based user interfaces, universal accessibility, human-robot interaction, agent-driven human computer interaction, and sharable mobile devices are a few of these trends. ACHI 2018 brought also a suite of specific domain applications, such as gaming, social, medicine, education and engineering.

The event was very competitive in its selection process and very well perceived by the international scientific and industrial communities. As such, it is attracting excellent contributions and active participation from all over the world. We were very pleased to receive a large amount of top quality contributions.

The accepted papers covered a wide range of human-computer interaction related topics such as graphical user interfaces, input methods, training, recognition, and applications.

We believe that the ACHI 2018 contributions offered a large panel of solutions to key problems in all areas of human-computer interaction.

We take here the opportunity to warmly thank all the members of the ACHI 2018 technical program committee as well as the numerous reviewers. The creation of such a broad and high quality conference program would not have been possible without their involvement. We also kindly thank all the authors that dedicated much of their time and efforts to contribute to the ACHI 2018. We truly believe that thanks to all these efforts, the final conference program consists of top quality contributions.

This event could also not have been a reality without the support of many individuals, organizations and sponsors. In addition, we also gratefully thank the members of the ACHI 2018 organizing committee for their help in handling the logistics and for their work that is making this professional meeting a success.

We hope the ACHI 2018 was a successful international forum for the exchange of ideas and results between academia and industry and to promote further progress in the human-computer interaction field.

We also hope that Rome provided a pleasant environment during the conference and everyone saved some time for exploring this beautiful city.

ACHI 2018 Chairs

ACHI Steering Committee

Leslie Miller, Iowa State University - Ames, USA
Alma Leora Culén , University of Oslo, Norway
Hermann Kaindl, Vienna University of Technology, Austria
Uttam Kokil, Kennesaw State University Marietta, USA
Flaminia Luccio, University Ca' Foscari of Venice, Italy
Jaehyun Park, Incheon National University (INU), South Korea

ACHI Industry/Research Advisory Committee

Jacki O'Neill, Microsoft Research, India
Weizhi Meng, Institute for Infocomm Research (I2R), Singapore
Harald Milchrahm, Institute for Softwaretechnology - Technical University Graz, Austria
Steffen Scholz, Karlsruhe Institute of Technology (KIT), Germany
Ryo Ishii, NTT Corporation, Japan
Zahen Malla Osman, The National Center for Scientific Research (CNRS), France
Mohammed Korayem, Careerbuilder.com, USA
