

ALLSENSORS 2022

Forward

The Seventh International Conference on Advances in Sensors, Actuators, Metering and Sensing (ALLSENSORS 2022), held in Porto, Portugal, June 26 - 30, 2022., covered related topics on theory practice and applications of sensor devices, techniques, data acquisition and processing, and on wired and wireless sensors and sensor networks.

Sensor networks and sensor-based systems support many applications today above ground. Underwater operations and applications are quite limited by comparison. Most applications refer to remotely controlled submersibles and wide-area data collection systems at a coarse granularity. Other remote sensing domains and applications are using special sensing devices and services. Transducers and actuators complement the monitoring and control and constitute an area of interest related to sensors. They make use of specific sensor-based measurements and convey appropriate control actions.

ALLSENSORS 2022 was intended to serve as a forum for researchers from the academia and the industry, professionals, standard developers, policy makers, investors and practitioners to present their recent results, to exchange ideas, and to establish new partnerships and collaborations. The accepted papers covered a large spectrum of topics on techniques and applications, best practices, awareness and experiences as well as future trends and needs (both in research and practice) related to all aspects of sensor-based applications and services.

We take here the opportunity to warmly thank all the members of the ALLSENSORS 2022 technical program committee as well as the numerous reviewers. The creation of such a broad and high quality conference program would not have been possible without their involvement. We also kindly thank all the authors that dedicated much of their time and efforts to contribute to the ALLSENSORS 2022. We truly believe that thanks to all these efforts, the final conference program consists of top quality contributions.

This event could also not have been a reality without the support of many individuals, organizations and sponsors. In addition, we also gratefully thank the members of the ALLSENSORS 2022 organizing committee for their help in handling the logistics and for their work that is making this professional meeting a success.

We hope the ALLSENSORS 2022 was a successful international forum for the exchange of ideas and results between academia and industry and to promote further progress on the topics of sensors. We also hope that Porto provided a pleasant environment during the conference and everyone saved some time for exploring this beautiful city

ALLSENSORS 2022 Chairs

ALLSENSORS Steering Committee

Michael Niedermayer, Berliner Hochschule für Technik (BHT), Germany

Paulo E. Cruvinel, Embrapa Instrumentation, Brazil

Matteo Tonzzer, CNR-IMEM, Trento, Italy

Almudena Rivadeneyra, Universidad de Granada, Spain

Sandrine Bernardini, Aix Marseille University, France

ALLSENSORS 2022 Publicity Chair

Laura Garcia, Universitat Politècnica de València (UPV), Spain

José Miguel Jiménez, Universitat Politecnica de Valencia, Spain
