COLLA 2014

Foreword

The Fourth International Conference on Advanced Collaborative Networks, Systems and Applications (COLLA 2014), held between June 22-26, 2014 - Seville, Spain, continued a series of events dedicated to advanced collaborative networks, systems and applications, focusing on new mechanisms, infrastructures, services, tools and benchmarks.

Collaborative systems became a norm due to the globalization of services and infrastructures and to multinational corporation branches. While organizations and individuals relied on collaboration for decades, the advent of new technologies (Web services, Cloud computing, Service-oriented architecture, Semantics and Ontology, etc.) for inter- and intra-organization collaboration created an enabling environment for advanced collaboration.

As a consequence, new developments are expected from current networking and interacting technologies (protocols, interfaces, services, tools) to support the design and deployment of a scalable collaborative environments. Innovative systems and applications design, including collaborative robots, autonomous systems, and consideration for dynamic user behavior is the trend.

We take here the opportunity to warmly thank all the members of the COLLA 2014 Technical Program Committee, as well as the numerous reviewers. The creation of such a high quality conference program would not have been possible without their involvement. We also kindly thank all the authors who dedicated much of their time and efforts to contribute to COLLA 2014. We truly believe that, thanks to all these efforts, the final conference program consisted of top quality contributions.

Also, this event could not have been a reality without the support of many individuals, organizations, and sponsors. We are grateful to the members of the COLLA 2014 organizing committee for their help in handling the logistics and for their work to make this professional meeting a success.

We hope that COLLA 2014 was a successful international forum for the exchange of ideas and results between academia and industry and for the promotion of progress in the field of collaborative networks, systems and applications.

We are convinced that the participants found the event useful and communications very open. We also hope the attendees enjoyed the charm of Seville, Spain.

COLLA 2014 Chairs:

COLLA Advisory Committee
Lasse Berntzen, Vestfold University College - Tønsberg, Norway
Mohamed Eltoweissy, Virginia Military Institute/ Virginia Tech, USA
Howard Spoelstra, Open University in the Netherlands, Netherlands
Pascal Salembier, University of Technology of Troyes, France
Atsuo Hazeyama, Tokyo Gakugei University, Japan
Wendy Lucas, Bentley University - Waltham, USA
Henric Johnson, Blekinge Institute of Technology, Sweden
Christophe Thovex, University of Nantes, France
Alessandro Campi, Politecnico di Milano, Italy
Anna Kocurova, University of West London, United Kingdom

COLLA Industry/Research Chairs
Anna Divoli, Pingar Research, New Zealand
Jin-Hee Cho, U.S. Army Research Laboratory (USARL) - Adelphi, USA
Holger Kett, Fraunhofer IAO - Stuttgart, Germany
Byoung Uk Kim, Ridgetop Group Inc. - Tucson, USA
Raymond A Liuzzi, Raymond Technologies - Whitesboro, USA
Jérôme Dantan, Esitpa, France

COLLA Publicity Chairs
Dapeng Dong, University College Cork, Ireland
Benjamin Knoke, BIBA – Bremer Institut für Produktion und Logistik, Germany
Mateusz Adamczyk, University of Warsaw, Poland
Kenji Takagi, Tokyo Metropolitan University, Japan
Yann Veilleroy, Université Catholique de Lille, France
