

CONTENT 2025

Forward

The Seventeenth International Conference on Creative Content Technologies (CONTENT 2025), held on April 6 – 10, 2025, continued a series of events targeting advanced concepts, solutions and applications in producing, transmitting and managing various forms of content and their combination. Multi-cast and uni-cast content distribution, content localization, on-demand or following customer profiles are common challenges for content producers and distributors. Special processing challenges occur when dealing with social, graphic content, animation, speech, voice, image, audio, data, or image contents. Advanced producing and managing mechanisms and methodologies are now embedded in current and soon-to-be solutions.

Similar to the previous edition, this event attracted excellent contributions and active participation from all over the world. We were very pleased to receive top quality contributions.

We take here the opportunity to warmly thank all the members of the CONTENT 2025 technical program committee, as well as the numerous reviewers. The creation of a high quality conference program would not have been possible without their involvement. We also kindly thank all the authors that dedicated much of their time and effort to contribute to CONTENT 2025. We truly believe that, thanks to all these efforts, the final conference program consisted of top quality contributions.

Also, this event could not have been a reality without the support of many individuals, organizations and sponsors. We also gratefully thank the members of the CONTENT 2025 organizing committee for their help in handling the logistics and for their work that made this professional meeting a success.

We hope CONTENT 2025 was a successful international forum for the exchange of ideas and results between academia and industry and to promote further progress in the area of creative content technologies. We also hope that Valencia provided a pleasant environment during the conference and everyone saved some time to enjoy this beautiful city.

CONTENT 2025 General Chair

Hans-Werner Sehring, NORDAKADEMIE - University of Applied Sciences, Germany

CONTENT 2025 Steering Committee

Raouf Hamzaoui, De Montfort University - Leicester, UK
