

CTRQ 2022

Forward

The Fifteenth International Conference on Communication Theory, Reliability, and Quality of Service (CTRQ 2022) continued a series of events focusing on the achievements on communication theory with respect to reliability and quality of service. The conference also dealt with the most recent results in theory and practice on improving network and system reliability, as well as new mechanisms related to quality of service tuned to user profiles.

The processing and transmission speed and increasing memory capacity might be a satisfactory solution on the resources needed to deliver ubiquitous services, under guaranteed reliability and satisfying the desired quality of service. Successful deployment of communication mechanisms guarantees a decent network stability and offers a reasonable control on the quality of service expected by the end users. Recent advances on communication speed, hybrid wired/wireless, network resiliency, delay-tolerant networks and protocols, signal processing and so forth asked for revisiting some aspects of the fundamentals in communication theory. Mainly network and system reliability and quality of service are those that affect the maintenance procedures, on the one hand, and the user satisfaction on service delivery, on the other hand. Reliability assurance and guaranteed quality of services require particular mechanisms that deal with dynamics of system and network changes, as well as with changes in user profiles. The advent of content distribution, IPTV, video-on-demand and other similar services accelerate the demand for reliability and quality of service.

We take here the opportunity to warmly thank all the members of the CTRQ 2022 technical program committee, as well as all the reviewers. The creation of such a high-quality conference program would not have been possible without their involvement. We also kindly thank all the authors who dedicated much of their time and effort to contribute to CTRQ 2022. We truly believe that, thanks to all these efforts, the final conference program consisted of top-quality contributions. We also thank the members of the CTRQ 2022 organizing committee for their help in handling the logistics of this event.

CTRQ 2022 Chairs

CTRQ 2022 Steering Committee

Kiran Makhijani, FutureWei, USA

Daniele Codetta Raiteri, Università del Piemonte Orientale, Italy

Ali Jalooli, California State University at Dominguez Hills, USA

Costas Vassilakis, University of the Peloponnese – Tripoli, Greece

CTRQ 2022 Publicity Chairs

Javier Rocher, Universitat Politècnica de València, Spain

Lorena Parra, Universitat Politècnica de València, Spain
