

DATA ANALYTICS 2025

Forward

The Fourteenth International Conference on Data Analytics (DATA ANALYTICS 2025), held between September 28th, 2025, and October 2nd, 2025, in Lisbon, Portugal, continued a series of international events on fundamentals in supporting data analytics, special mechanisms, and features of applying principles of data analytics, application-oriented analytics, and target-area analytics.

Processing terabytes to petabytes of data or incorporating non-structural data and multi-structured data sources and types require advanced analytics and data science mechanisms for both raw and partially processed information. Despite considerable advancements in high performance, large storage, and high computation power, there are challenges in identifying, clustering, classifying, and interpreting a large spectrum of information.

We take here the opportunity to warmly thank all the members of the DATA ANALYTICS 2025 technical program committee, as well as all the reviewers. The creation of such a high-quality conference program would not have been possible without their involvement. We also kindly thank all the authors who dedicated much of their time and effort to contribute to DATA ANALYTICS 2025. We truly believe that, thanks to all these efforts, the final conference program consisted of top-quality contributions. We also thank the members of the DATA ANALYTICS 2025 organizing committee for their help in handling the logistics of this event.

We hope that DATA ANALYTICS 2025 was a successful international forum for the exchange of ideas and results between academia and industry for the promotion of progress in the field of data analytics.

DATA ANALYTICS 2025 Chairs

DATA ANALYTICS 2025 Steering Committee

Wolfram Wöß, Institute for Application Oriented Knowledge Processing | Johannes Kepler University, Linz, Austria

Kerstin Lemke-Rust, Hochschule Bonn-Rhein-Sieg, Germany

George Tambouratzis, Institute for Language and Speech Processing, Athena R.C., Greece

Les Sztandera, Thomas Jefferson University, USA

Ivana Semanjski, Ghent University, Belgium

Sandjai Bhulai, Vrije Universiteit Amsterdam, The Netherlands

Joseph G Vella, University of Malta, Malta

DATA ANALYTICS 2025 Publicity Chairs

Laura Garcia, Universidad Politécnica de Cartagena, Spain

Lorena Parra Boronat, Universidad Politécnica de Madrid, Spain
