GLOBAL HEALTH 2015

Forward

The Fourth International Conference on Global Health Challenges (GLOBAL HEALTH 2015), held between July 19-24, 2015 in Nice, France, continued a series of events taking a global perspective on population health, from national to cross-country approaches, multiplatform technologies, from drug design to medicine accessibility, everything under mobile, ubiquitous, and personalized characteristics of new age population.

Recent advances in technology and computational science influenced a large spectrum of branches in approaching population health. Despite significant progresses, many challenges exist, including health informatics, cross-country platforms interoperability, system and laws harmonization, protection of health data, practical solutions, accessibility to health services, and many others. Along with technological progress, personalized medicine, ambient assistance and pervasive health complement patient needs. A combination of classical and information-driven approach is developing now, where diagnosis systems, data protection mechanisms, remote assistance and hospital-processes are converging.

The conference had the following tracks:
- Trends and Practice
- Challenges
- Fundamentals
- Technology
- Medical Systems and Technologies

Similar to previous editions, this event attracted excellent contributions and active participation from all over the world. We were very pleased to receive top quality contributions.

We take here the opportunity to warmly thank all the members of the GLOBAL HEALTH 2015 technical program committee, as well as the numerous reviewers. The creation of such a high quality conference program would not have been possible without their involvement. We also kindly thank all the authors that dedicated much of their time and effort to contribute to GLOBAL HEALTH 2015. We truly believe that, thanks to all these efforts, the final conference program consisted of top quality contributions.

Also, this event could not have been a reality without the support of many individuals, organizations and sponsors. We also gratefully thank the members of the GLOBAL HEALTH 2015 organizing committee for their help in handling the logistics and for their work that made this professional meeting a success.

We hope that GLOBAL HEALTH 2015 was a successful international forum for the exchange of ideas and results between academia and industry and to promote further progress in the area of global health challenges. We also hope that Nice, France, provided a pleasant
environment during the conference and everyone saved some time to enjoy the charm of the city.

GLOBAL HEALTH 2015 Chairs

GLOBAL HEALTH Steering Committee

Hassan Khachfe, Lebanese International University, Lebanon
Shunji Shimizu, Tokyo University of Science, Suwa, Japan
Sten Hanke, IPN Instituto Pedro Nunes, Portugal | AIT Austrian Institute of Technology GmbH, Austria
Michael Bremseth, Winthrop University, USA
Jean-Pierre Cordeau, McGill University Health Centre, Canada
Ivan Evgeniev, TU Sofia, Bulgaria
Matthieu-P. Schapranow, Hasso Plattner Institute, Germany

GLOBAL HEALTH Technology Advisory Committee

Marike Hettinga, Windesheim University of Applied Sciences, Netherlands
Shirley Coyle, Centre for Sensor Web Technologies / Dublin City University, Ireland
Vasa Curcin, Imperial College London, UK
Anna Cysewska-Sobusiak, Poznan University of Technology, Poland
Kevin Daimi, University of Detroit Mercy, USA
Ravi Janardan, University of Minnesota-Twin Cities, USA
Jose M. Juarez, University of Murcia, Spain
Jochen Meyer, OFFIS Institute for Computer Science, Germany
Vesselin Gueorguiev, TU Sofia, Bulgaria
Miki Sirola, Aalto University, Finland
Daniel Steffen, German Research Center for Artificial Intelligence (DFKI) GmbH - Kaiserslautern, Germany
Maria Taboada Iglesias, University of Santiago de Compostela, Spain
Jari Veijalainen, University of Jyvaskyla, Finland
Pierangelo Veltri, University Magna Graecia of Catanzaro, Italy
Brijesh Verma, Central Queensland University, Australia
Liangjiang Wang, Clemson University - Greenwood, USA
Hans C. Ossebaard, National Institute for Public Health and the Environment - Bilthoven, The Netherlands

GLOBAL HEALTH Public/Government/Research Advisory Committee

Christopher Mayer, AIT Austrian Institute of Technology GmbH, Austria
João Quintas, Instituto Pedro Nunes, Portugal
Yoshikazu Seki, National Institute of Advanced Industrial Science and Technology (AIST) - Ibaraki, Japan
