

GLOBAL HEALTH 2023

Forward

The Twelfth International Conference on Global Health Challenges (GLOBAL HEALTH 2023), held between September 25th and September 29th, 2023, continued a series of international events taking a global perspective on population health, from national to cross-country approaches, multiplatform technologies, from drug design to medicine accessibility, including everything under mobile, ubiquitous, and personalized characteristics of new age population.

Recent advances in technology and computational science influenced a large spectrum of branches in approaching population health. Despite significant progresses, many challenges exist, including health informatics, cross-country platforms interoperability, system and laws harmonization, protection of health data, practical solutions, accessibility to health services, and many others. Technological progress, personalized medicine, ambient assistance, and pervasive health, complement patient needs. A combination of classical and information-driven approaches is being developed, where diagnosis systems, data protection mechanisms, remote assistance and hospital-processes are converging.

We take here the opportunity to warmly thank all the members of the GLOBAL HEALTH 2023 technical program committee, as well as all the reviewers. The creation of such a high-quality conference program would not have been possible without their involvement. We also kindly thank all the authors who dedicated much of their time and effort to contribute to GLOBAL HEALTH 2023. We truly believe that, thanks to all these efforts, the final conference program consisted of top-quality contributions. We also thank the members of the GLOBAL HEALTH 2023 organizing committee for their help in handling the logistics of this event.

We hope that GLOBAL HEALTH 2023 was a successful international forum for the exchange of ideas and results between academia and industry and for the promotion of progress related to global health challenges.

GLOBAL HEALTH 2023 Chairs

GLOBAL HEALTH 2023 Steering Committee

Matthieu-P. Schapranow, Hasso-Plattner-Institut für Digital Engineering gGmbH, Germany

Lorena Parra Boronat, Instituto Madrileño de Investigación y Desarrollo Rural, Agrario y Alimentario
And Universitat Politecnica de Valencia, Spain

Ah-Choo Koo, Research Centre for Interactive Media Faculty of Creative Multimedia, Multimedia
University, Malaysia

Evgeniy Krastev, Sofia University St. Kliment Ohridsky, Bulgaria

Ozgu Can, Ege University, Turkey

Monique Chyba, University of Hawai'i at Mānoa, USA

GLOBAL HEALTH 2023 Publicity Chairs

Laura Garcia, Universitat Po, litecnica de Valencia, Spain

Lorena Parra Boronat, Universitat Politecnica de Valencia, Spain
