

# ICCGI 2022

## Forward

The Seventeenth International Multi-Conference on Computing in the Global Information Technology (ICCGI 2022) continued a series of events covering a large spectrum of topics related to global knowledge concerning computation, technologies, mechanisms, cognitive patterns, thinking, communications, user-centric approaches, nanotechnologies, and advanced networking and systems. The conference topics focused on challenging aspects in the next generation of information technology and communications related to the computing paradigms (mobile computing, database computing, GRID computing, multi-agent computing, autonomic computing, evolutionary computation) and communication and networking and telecommunications technologies (mobility, networking, biotechnologies, autonomous systems, image processing, Internet and web technologies), towards secure, self-defendable, autonomous, privacy-safe, and context-aware scalable systems.

This conference intended to expose the scientists to the latest developments covering a variety of complementary topics, aiming to enhance one's understanding of the overall picture of computing in the global information technology.

We take here the opportunity to warmly thank all the members of the ICCGI 2022 technical program committee, as well as all the reviewers. The creation of such a high-quality conference program would not have been possible without their involvement. We also kindly thank all the authors who dedicated much of their time and effort to contribute to ICCGI 2022. We truly believe that, thanks to all these efforts, the final conference program consisted of top-quality contributions. We also thank the members of the ICCGI 2022 organizing committee for their help in handling the logistics of this event.

### **ICCGI 2022 Chairs**

#### **ICCGI 2022 Steering Committee**

Constantin Paleologu, Polytechnic University of Bucharest, Romania  
Peter Kieseberg, St. Pölten University of Applied Sciences, Austria  
Yasushi Kambayashi, Nippon Institute of Technology, Japan  
Ulrich Reimer, University of Applied Sciences St. Gallen, Switzerland  
Kathryn E. Stecke, University of Texas at Dallas, USA  
Juho Mäkiö, Hochschule Emden / Leer, Germany

#### **ICCGI 2022 Publicity Chairs**

Mar Parra, Universitat Politècnica de València (UPV), Spain  
Hannah Russell, Universitat Politècnica de València (UPV), Spain
