

ICN 2014

Foreword

The Thirteenth International Conference on Networks (ICN 2014), held between February 23rd-27th, 2014 in Nice, France, continued a series of events focusing on the advances in the field of networks.

ICN 2014 welcomed technical papers presenting research and practical results, position papers addressing the pros and cons of specific proposals, such as those being discussed in the standard fora or in industry consortia, survey papers addressing the key problems and solutions, short papers on work in progress, and panel proposals.

We take here the opportunity to warmly thank all the members of the ICN 2014 Technical Program Committee, as well as the numerous reviewers. The creation of such a high quality conference program would not have been possible without their involvement. We also kindly thank all the authors who dedicated much of their time and efforts to contribute to ICN 2014. We truly believe that, thanks to all these efforts, the final conference program consisted of top quality contributions.

Also, this event could not have been a reality without the support of many individuals, organizations, and sponsors. We are grateful to the members of the ICN 2014 organizing committee for their help in handling the logistics and for their work to make this professional meeting a success.

We hope that ICN 2014 was a successful international forum for the exchange of ideas and results between academia and industry and for the promotion of progress in the field of networks.

We are convinced that the participants found the event useful and communications very open. We also hope the attendees enjoyed the charm of Nice, France.

ICN Chairs:

Pascal Lorenz, University of Haute Alsace, France

Tibor Gyires, Illinois State University, USA

Eva Hladká, Masaryk University - Brno / CESNET, Czech Republic

Iwona Pozniak-Koszalka, Wroclaw University of Technology, Poland
