

# ICN 2023

## Forward

The Twenty-Second International Conference on Networks (ICN 2023), held between April 24<sup>th</sup> and April 28<sup>th</sup>, 2023, continued a series of events organized by and for academic, research and industrial partners.

We solicited academic, research, and industrial contributions. We welcomed technical papers presenting research and practical results, position papers addressing the pros and cons of specific proposals, such as those being discussed in the standard fora or in industry consortia, survey papers addressing the key problems and solutions on any of the above topics short papers on work in progress, and panel proposals.

We take here the opportunity to warmly thank all the members of the ICN 2023 technical program committee, as well as all the reviewers. The creation of such a high-quality conference program would not have been possible without their involvement. We also kindly thank all the authors who dedicated much of their time and effort to contribute to ICN 2023. We truly believe that, thanks to all these efforts, the final conference program consisted of top-quality contributions. We also thank the members of the ICN 2023 organizing committee for their help in handling the logistics of this event.

We hope that ICN 2023 was a successful international forum for the exchange of ideas and results between academia and industry and for the promotion of progress in the area of networks.

### **ICN 2023 Chairs**

#### **ICN 2023 Steering Committee**

Eugen Borcoci, University Politehnica of Bucharest, Romania

Pascal Lorenz, University of Haute Alsace, France

Nicola Ciulli, Nextworks, Italy

Shintaro Mori, Fukuoka University, Japan

Yantong Wang, Shandong Normal University, China

Muath Obaidat, City University of New York, USA

#### **ICN 2023 Publicity Chairs**

Laura Garcia, Universitat Politecnica de Valencia, Spain

Javier Rocher Morant, Universitat Politecnica de Valencia, Spain
