

ICQNM 2017

Forward

The Eleventh International Conference on Quantum, Nano/Bio, and Micro Technologies (ICQNM 2017), held between September 10-14, 2017 in Rome, continued a series of events covering particularly promising theories and technologies. The conference covered fundamentals on designing, implementing, testing, validating and maintaining various kinds of materials, systems, techniques and mechanisms related to quantum-, nano- and microtechnologies.

We take here the opportunity to warmly thank all the members of the ICQNM 2017 technical program committee, as well as all the reviewers. The creation of such a high quality conference program would not have been possible without their involvement. We also kindly thank all the authors that dedicated much of their time and effort to contribute to ICQNM 2017. We truly believe that, thanks to all these efforts, the final conference program consisted of top quality contributions.

We also gratefully thank the members of the ICQNM 2017 organizing committee for their help in handling the logistics and for their work that made this professional meeting a success.

We hope that ICQNM 2017 was a successful international forum for the exchange of ideas and results between academia and industry and to promote further progress in the field of quantum, nano/bio, and micro technologies. We also hope that Rome, Italy provided a pleasant environment during the conference and everyone found some time to enjoy the historic charm of the city.

ICQNM 2017 Chairs

CQNM Steering Committee

Sergey Yurish, IFSA, Spain

Shaya Fainman, University of California, San Diego, USA

Stefano Mancini, University of Camerino, Italy

Ashok Srivastava, Louisiana State University, Baton Rouge, USA

Vladimir Privman, Clarkson University - Potsdam, USA

Xin-Wei Yao, Zhejiang University of Technology, China

Masahito Hayashi, Nagoya University, Japan

ICQNM Research/Industry Committee

Thierry Ferrus, Hitachi Cambridge Laboratory, UK

Travis S. Humble, Oak Ridge National Laboratory, USA

Donald Sofge, Naval Research Laboratory, USA

Christian Kollmitzer, AIT Austrian Institute of Technology GmbH, Austria

Marco Genovese, Italian Metrological Institute (INRIM) -Torino, Italy
Keiji Matsumoto, National Institute of Informatics, Japan
