

PATTERNS 2024

Forward

The Sixteenth International Conferences on Pervasive Patterns and Applications (PATTERNS 2024), held on April 14 – 18, 2024, continued a series of events targeting the application of advanced patterns, at-large. In addition to support for patterns and pattern processing, special categories of patterns covering ubiquity, software, security, communications, discovery and decision were considered. It is believed that patterns play an important role on cognition, automation, and service computation and orchestration areas. Antipatterns come as a normal output as needed lessons learned.

The conference had the following tracks:

- Patterns basics
- Patterns at work
- Discovery and decision patterns
- Medical and facial image patterns
- Tracking human patterns

Similar to the previous edition, this event attracted excellent contributions and active participation from all over the world. We were very pleased to receive top quality contributions.

We take here the opportunity to warmly thank all the members of the PATTERNS 2024 technical program committee, as well as the numerous reviewers. The creation of a high quality conference program would not have been possible without their involvement. We also kindly thank all the authors that dedicated much of their time and effort to contribute to PATTERNS 2024. We truly believe that, thanks to all these efforts, the final conference program consisted of top quality contributions.

Also, this event could not have been a reality without the support of many individuals, organizations and sponsors. We also gratefully thank the members of the PATTERNS 2024 organizing committee for their help in handling the logistics and for their work that made this professional meeting a success.

We hope PATTERNS 2024 was a successful international forum for the exchange of ideas and results between academia and industry and to promote further progress in the area of pervasive patterns and applications. We also hope that Venice provided a pleasant environment during the conference and everyone saved some time to enjoy this beautiful city.

PATTERNS 2024 Steering Committee

Herwig Manaert, University of Antwerp, Belgium

Wladyslaw Homenda, Warsaw University of Technology, Poland

Yuji Iwahori, Chubu University, Japan

Alexander Mirnig, University of Salzburg, Austria

George A. Papakostas, International Hellenic University – Kavala, Greece

PATTERNS 2024 Publicity Chair

José Miguel Jiménez, Universitat Politecnica de Valencia, Spain
Sandra Viciano Tudela, Universitat Politecnica de Valencia, Spain
