

SMART 2016

Foreword

The Fifth International Conference on Smart Systems, Devices and Technologies (SMART 2016), held between May 22-26, 2016, in Valencia, Spain, continues a series of events covering tendencies towards future smart cities, specialized technologies and devices, environmental sensing, energy optimization, pollution control and socio-cultural aspects.

Digital societies take rapid developments toward smart environments. More and more social services are digitally available to citizens. The concept of 'smart cities' including all devices, services, technologies and applications associated with the concept sees a large adoption. Ubiquity and mobility added new dimensions to smart environments. Adoption of smartphones and digital finder maps, and increasing budgets for technical support of services to citizens settled a new behavioral paradigm of city inhabitants.

The SMART 2016 conference also featured the following symposium:

- URBAN COMPUTING 2016- The International Symposium on Emerging Frontiers of Urban Computing and Smart Cities

We take here the opportunity to warmly thank all the members of the SMART 2016 Technical Program Committee, as well as the numerous reviewers. The creation of such a broad and high quality conference program would not have been possible without their involvement. We also kindly thank all the authors who dedicated much of their time and efforts to contribute to SMART 2016. We truly believe that, thanks to all these efforts, the final conference program consisted of top quality contributions.

Also, this event could not have been a reality without the support of many individuals, organizations, and sponsors. We are grateful to the members of the SMART 2016 organizing committee for their help in handling the logistics and for their work to make this professional meeting a success.

We hope that SMART 2016 was a successful international forum for the exchange of ideas and results between academia and industry and for the promotion of progress in the field of smart systems, devices and technologies.

We are convinced that the participants found the event useful and communications very open. We hope that Valencia provided a pleasant environment during the conference and everyone saved some time to enjoy the charm of the city.

SMART 2016 Chairs:

SMART General Chair

Sandra Sendra Compte, Polytechnic University of Valencia, Spain

SMART Advisory Committee

Wolfgang Leister, Norsk Regnesentral, Norway

Hoyoung Jeung, SAP Research Brisbane, Australia

Petri Koskelainen, Nokia - Sunnyvale, USA

Sherali Zeadally, University of Kentucky, USA

Susana Sargento, University of Aveiro/Institute of Telecommunications, Portugal

Rich Simpson, University of Pittsburgh, USA
Lasse Berntzen, University College of Southeast, Norway
Jeffrey Soar, University of Southern Queensland, Australia
Jerker Delsing, Lulea University of Technology, Sweden
Krishna Kant, George Mason University, USA
Luigi Patrono, University of Salento, Italy
Dmitry Namiot, Lomonosov Moscow State University, Russia
Francine Krief, University of Bordeaux, France
Pascal Urien, Télécom ParisTech, France

SMART Industry/Research Chairs

Christian Prehofer, Kompetenzfeldleiter Adaptive Kommunikationssysteme / Fraunhofer-Einrichtung für Systeme der Kommunikationstechnik ESK – München, Germany
Ryosuke Ando, TTRI (Toyota Transportation Research Institute), Japan
Petko Bakalov - Environmental Systems Research Institute, USA
Gregor Broll, DOCOMO Euro-Labs, Germany
Yang Cui, Huawei Technologies - Beijing, China
Marko Jaakola, VTT Technical Research Centre of Finland, Finland
Hoyoung Jeung, SAP Research Brisbane, Australia
Lieven Trappeniers, Bell Labs Alcatel-Lucent, Belgium
Chengyang Zhang, Teradata Inc., USA
Fabio Pianesi, Fondazione Bruno Kessler - Trento, Italy
Fabio Moretti, ENEA, Italy

SMART Publicity Chairs

Stephen McLaughlin, Penn State University, USA
Christina Novitarini, PT Telkom, Indonesia
Andrea Capitanelli, Università Politecnica delle Marche, Italy
Christoph Soellner, Technische Universität München, F13, Germany
Jesse Kielthy, Waterford Institute of Technology, Ireland

URBAN COMPUTING 2016 Advisory Committee

Yi Pan, Georgia State University, USA
Amnon Dekel, The Hebrew University Jerusalem, Israel
Yan Cimon, University Laval, Quebec-City, Canada
Roberto de Bonis, Telecom Italia, Italy
Jean-Claude Thill, University of North Carolina at Charlotte, USA
