

eTELEMED 2023

Forward

The Fifteenth International Conference on eHealth, Telemedicine, and Social Medicine (eTELEMED 2023), held in Venice, Italy, April 24 - 28, 2023, considered advances in techniques, services, and applications dedicated to a global approach of eHealth.

Development of wireless homecare, of special types of communications with patient data, of videoconferencing and telepresence, and the progress in image processing and data protection increased the eHealth applications and services, and extended Internet-based patient coverage areas. Social and economic aspects as well as the integration of classical systems with the telemedicine systems are still challenging issues.

eTELEMED 2023 provided a forum where researchers were able to present recent research results and new research problems and directions related to them. The topics covered aspects from classical medicine and eHealth integration, systems and communication, devices, and applications.

We take this opportunity to thank all the members of the eTELEMED 2023 Technical Program Committee as well as the numerous reviewers. The creation of such a broad and high-quality conference program would not have been possible without their involvement. We also kindly thank all the authors who dedicated much of their time and efforts to contribute to the eTELEMED 2023. We truly believe that, thanks to all these efforts, the final conference program consists of top quality contributions.

This event could also not have been a reality without the support of many individuals, organizations, and sponsors. We are grateful to the members of the eTELEMED 2023 organizing committee for their help in handling the logistics and for their work to make this professional meeting a success.

We hope that eTELEMED 2023 was a successful international forum for the exchange of ideas and results between academia and industry and for the promotion of progress in eHealth and Telemedicine research. We also hope that Venice provided a pleasant environment during the conference and everyone saved some time for exploring this beautiful city

eTELEMED 2023 Chairs

eTELEMED Steering Committee

Yoshitoshi Murata, Iwate Prefectural University, Japan

Jaime Lloret Mauri, Universitat Politècnica de Valencia, Spain

Les Sztandera, Thomas Jefferson University, USA

Petre Dini, IARIA, USA/EU

eTELEMED 2022 Publicity Chair

Laura Garcia, Universitat Politècnica de València (UPV), Spain

Javier Rocher Morant, Universitat Politècnica de Valencia, Spain
