Filling a Gap in eHealth Records: The Development of a Home Care Records System <i>Anthony Glascock</i>	1
Pharmer -- Towards Semantic Medical Prescriptions <i>Ali Khalili and Bitá Sedaghati</i>	9
An Automated Motion Artifact Removal Algorithm in Electrocardiogram Based on Independent Component Analysis <i>Heenam Yoon, Hanbyul Kim, Sungjun Kwon, and Kwangsuk Park</i>	15
Modeling the Clinical Observation Space of Electronic Medical Record in Primary Care <i>Elmehdi Aitnouri and Ali Abbassene</i>	21
Modelling Patient Medication Usage in Secondary Care Research Systems <i>Sarah Lim Choi Keung, Ire Ogunsina, James Rossiter, Lei Zhao, Theodoros Arvanitis, and Gavin Langford</i>	25
The Bravehealth Software Architecture for the Monitoring of Patients Affected by CVD <i>Silvia Canale, Francesco Delli Priscoli, Silvano Mignanti, Guido Oddi, Antonio Sassano, Donato Macone, Lorenzo Piazza, Francesco Costa, and Paolo De Stefanis</i>	29
A Rule-based Approach for Medical Decision Support <i>Silvia Canale, Francesco Delli Priscoli, Guido Oddi, Antonio Sassano, and Silvano Mignanti</i>	35
The Work Practice of Videoconferencing in Acute Stroke Treatment <i>Line Lundvoll Nilsen</i>	41
Chronically Ill Citizens and Home Monitoring: “Nothing to talk about”! <i>Jane Clemensen, Mette Atipei Craggs, Casper Marcussen, Jan Petersen, and Helmut Prior</i>	47
A Multifunctional Telemedicine System for Pre-hospital Emergency Medical Services <i>Sebastian Thelen, Marie-Therese Schneiders, Daniel Schilberg, and Sabina Jeschke</i>	53
An Introduction to a Transnational Volunteer Notification System Providing Cardiopulmonary Resuscitation for Victims Suffering a Sudden Cardiac Arrest <i>Jesko Elsner, Marie-Therese Schneiders, Max Haberstroh, Daniel Schilberg, and Sabina Jeschke</i>	59
Specialist Decision Support for Patients with Ventricular Assist Devices <i>Markos Tsipouras, Alexandros Tzallas, Evaggelos Karvounis, Nikolaos Katertsidis, Yorgos Goletsis, Konstantinos Stefanou, Dimitrios Fotiadis, John Terrovitis, and Maria Trivella</i>	65
Developing eHealth Technology for People With Dementia: Towards a Supportive Decision Tool Facilitating	69

Shared Decision-Making in Dementia

Marijke Span, Carolien Smits, Leontine Groen-van de Ven, Jan Jukema, Marike Hettinga, Anita Cremers, Myrra Vernooij-Dassen, and Jan Eefsting

Impact of Knowledge Transfer Through the Implementation of an Emergency Telemedicine Program in a Brazilian Community Hospital 73

Milton Steinman, Carlos Alberto Cordeiro Abreu Filho, Ana Helena Vicente Andrade, Ruy Guilherme Cal, Nelson Akamine, Alberto Kanamura, Miguel Cenderoglo, Claudio Lottenberg, and Eliezer Silva

Disrupting the Market for Workplace Health: The case of OfficePhysio 78

Rene Bohnsack

E-Health System Development based on End User Centered Design 83

Rainer Planinc and Martin Kappel

Critical Success Factors for eHealthcare 87

Udita Taneja

Developing Evidence Guidelines for eHealth Small and Medium-sized Enterprises 92

Ruud Janssen, Marike Hettinga, Hilco Prins, Sikke Visser, Robbert Menko, Irene Krediet, Timber Haaker, and Lianne Bodenstaff

What Seniors Want in a Mobile Help-on-Demand Service 96

Oystein Dale, Ivar Solheim, Till Halbach, Trenton Schulz, Luiza Spuru, and Ileana Turcu

Evaluation of e-Health by PSM (Propensity Score Matching) Method 102

Yuji Akematsu and Masatsugu Tsuji

Applying the Stof Business Model Framework in eHealth Innovations 108

Robbert Menko, Sikke Visser, Ruud Janssen, Marike Hettinga, and Timber Haaker

Multi-Factor Authentication in Telemedicine Systems 114

Dayana Pierina Brustolin Spagnuolo, Jean Everson Martina, Ricardo Felipe Custodio, and Rafael Andrade

ePatient and eNurses Tools Based on Tactile Interfaces Applications for Nursing Home Residents and Nurse Team Support 121

Fabien Mas, Amelie Remondiere, Pierre-Alexandre Cocherau, Emilie Rouleau, Pascal Dartoux, Laurent Billonnet, Christelle Aupetit-Berthelemot, and Jean-Michel Dumas

Patient-Buddy-Build: Customized Mobile Monitoring for Patients with Chronic Diseases 121

Vitor Pinheiro, Markus Endler, and Edward Hermann

Stress at Work: Developing a Stress Management Program in a Web-Based Setting 125

Helene Sandmark and Asa Smedberg

Mobile Real-time Analysis of Patient Data for Advanced Decision Support in Personalized Medicine <i>Matthieu-P. Schapranow, Hasso Plattner, Cafer Tosun, and Christian Regenbrecht</i>	129
Towards an Architecture for a Game Achievement Based System to Analyze Human Health Comparative Behavior <i>Rene Baranyi, Nadja Lederer, and Thomas Grechenig</i>	137
Web-based Lifestyle Management for Chronic Kidney Disease Patients in a Clinical Setting <i>Jan M. Nauta, Paul J. M. Van der Boog, Jacqueline T. Slegten, Ruud Janssen, and Marike Hettinga</i>	141
Recognizing Physical Activities Using the Axivity Device <i>Ali Mehmood Khan</i>	147
A Common Platform for AAL Services and a Common Future – The universAAL Project <i>Lenna Maria Broberg and Michele Girolami</i>	153
Validation of a Telemonitoring System for Sleep Apnea Treatment <i>Valentina Isetta, Josep M Montserrat, Geraldine Thiebaut, Claude Weber, Daniel Navajas, and Ramon Farre</i>	156
Real Time Medication Monitoring with Customized SMS Reminders for People with Refractory Epilepsy <i>Marike Hettinga, Thea Gutter, and Jan Taco te Gussinklo</i>	162
Impact of Robotic Telemedicine in a Remote Community in Canada <i>Michael Jong</i>	168
Electronic Messaging in Primary Care – Reporting from an Implementation and Evaluation Project in Northern Norway <i>Trine S Bergmo, Gerd Ersdal, Eirin Rodseth, and Gro Berntsen</i>	172
Examination of the User Expectations from Hospital Information System <i>Guney Gursel</i>	178
Exchanging Nursing Oncology Care Data with use of a Clinical Data Ware House <i>William Goossen, Frank Boterenbrood, and Irene Krediet</i>	183
Get Moving - the Practice Nurse is Watching You! <i>Renee Verwey, Sanne van der Weegen, Marieke Spreeuwenberg, Huibert Tange, Trudy van der Weijden, and Luc de Witte</i>	188
A Social Media-based Participatory Epidemiology Approach for Vector-borne Disease Prevention (VBDP) in South Asia <i>Santosh Vijaykumar, May O. Lwin, Yin-Leng Theng, Schubert S. Foo, Siew Ann Cheong, and Gentatsu Lim</i>	194

CallMeSmart: A VoIP Softphone on Android Based Mobile Devices Using SIP <i>Terje Solvoll, Lorenzo Gironi, Alain Giordanengo, and Gunnar Hartvigsen</i>	198
Status of IT in Dutch Hospitals in 2011 <i>Irene Krediet and William Goossen</i>	204
A False Positive Reduction in Mass Detection Approach using Spatial Diversity Analysis } <i>Geraldo Braz Junior, Simara Vieira Rocha, Aristofanes Correa Silva, and Anselmo Cardoso Paiva</i>	208
Collection of Patient Reported Outcome Measures Using Short Messaging Service <i>Oystein Dale, Trenton Schulz, Anne Christie, and Hanne Dagfinrud</i>	214
Prediction of Metastatic Events in Patients With Cutaneous Melanoma <i>Christian Scheibboeck, Patrick Huber, Stefanie Weber, Kaan Harmankaya, Romina Nemecek, Jessika Weingast, Michael Binder, Thomas Mehl, Christian Schuh, and Stephan Dreiseitl</i>	220
Using Telecare for Diabetic Patients: A Mixed Systematic Review <i>Isabelle Vedel, Muriel Mignerat, Anshuman Saksena, and Liette Lapointe</i>	224
Applied Fuzzy C-means Clustering to Operation Evaluation <i>Hang Zettervall, Elisabeth Rakus-Andersson, and Henrik Forssell</i>	228
Advancing in Digitalized X-ray Images Post-processing <i>Vesselin Gueorguiev, Dessislava Georgieva, Ivan Evg. Ivanov, and Maria Nenova</i>	234
High Quality Region-of-Interest Coding for Video Conferencing based Remote General Practitioner Training <i>Manzur Murshed, Md. Atiur Siddique, Saikat Islam, Mortuza Ali, Guojun Lu, Elmer Villanueva, and James Brown</i>	240
A Cloud Scalable Platform for DICOM Image Analysis as a Tool for Remote Medical Support <i>Iuliana Ojog, Miguel Arias-Estrada, Jesus Gonzalez, and Beatriz Flores</i>	246
Proposal of a System for Intracranial Pressure Telemonitoring <i>Gustavo Silva, Marcelo Chioato, Angela de Sa, and Adriano Andrade</i>	250
BioMet®Phon: A System to Monitor Phonation Quality in the Clinics <i>Pedro Gomez, Victoria Rodellar, Victor Nieto, Rafael Martinez, Agustin Alvarez, Bartolome Scola, Carlos Ramirez, Daniel Poletti, and Mario Fernandez</i>	253
Automatic Heart Sound Analysis Module Based on Stockwell Transform Applied on Auto-Diagnosis and Telemedicine Applications <i>Ali Moukadem, Alain Dieterlen, and Chritian Brandt</i>	259
SmartNursing - a Mobile Application to Improve Communication in Home Care	265

Mads Nyborg, Khurram Bashir, and Asta Maknickaite

Recommendations for the Implementation of Exergames in the Context of Workplace Health Promotion: Results From Expert Interviews 271

Frederik Kerssenfischer, Svenja Simonsen, Tobias Fritsch, and Helmut Krcmar

Recommender Systems: an Experience with GenNet health-care Social Network 276

Cleyton Magalhaes, Ellen Souza, Correia Neto Jorge, and Guilherme Vilar

Apnea Event Estimation During Sleep Using Polyvinylidene Fluoride Film 280

Su Hwan Hwang, Hee Nam Yoon, Da Woon Jung, Yu-Jin Lee, Do-Un Jeong, and Kwang Suk Park

Review of Mobile Health (mHealth) Solutions for Food-related Conditions and Nutritional Risk Factors 284

Andreas Arens-Volland, Lubomira Spassova, and Norbert Rosch

Towards Influencing Factors on Business Models of Ambient Assisted Living Systems 290

Daniel Brem, Tobias Fritsch, Frederick Steinke, and Frederik Kerssenfischer

Usability of a Home-Based Monitoring System for Community-Dwelling Elderly People during a Pilot Study 296

Joan Vermeulen, Jacques C. L. Neyens, Marieke D. Spreuwenberg, Erik van Rossum, Walther Sipers, Herbert Habets, David J. Hewson, and Luc P. de Witte

An Optimized Infrastructure for Deferred Telemonitoring of Home Rehabilitation in Chronic Rheumatic Patients 301

Danilo Pani, Gianluca Barabino, Alessia Dessi, Matteo Piga, Alessandro Mathieu, and Luigi Raffo

Telestration in Mobile Telementoring 307

Andrius Budrionis, Knut Magne Augestad, and Johan Gustav Bellika

ScrutiniseIT: A Search-Based Approach to EEG Seizure Detection 310

Ruairi D. O'Reilly, David Power, Philip D. Healy, John P. Morrison, and Geraldine B. Boylan

Knowledge Representation for Cardiovascular Problems Applied to Mobile Monitoring of Elderly People 314

Clairton Sielbra, Manuella Silva, Fabio Silva, Andre Santos, and Regina Miranda

Real-time Telemedicine in Pediatric Cardiology 320

Riccardo Triunfo, Francesca Frexia, Francesco Cabras, Carlo Buttu, Valeria Lecca, Stefano Gessa, Sabrina Montis, Paola Neroni, and Roberto Tumbarello

Long Term Monitoring of Breathing Pattern Parameters by a Wearable System at COPD Patient's Home 327

Leonardo Govoni, Valentina Isetta, Piero Giacomelli, Roberto Rosso, Ramon Farre, and Raffaele Dellaca

Structured Documentation of Physiological Models and Behavioural Patterns containing Uncertainty 331

Myriam Lipprandt and Andreas Hein
